

Saphir 15

The Saphir 15 is an entry level fully automatic baling press, capable of handling process waste (i.e. trim/offcut) up to 2 tonnes per hour.

The bale size produced will weigh in the region of 100-150Kg (dependant on material processed)

Technical data: 2015

Feed Opening (mm)	1080x650
Loading capacity (cu.m)	0,35
Hydraulic power (tons)	15
Electric power (KW/HP)	7,5/10
Specific pressure (kg/sq.cm)	4,28
Number of cycle/minute	4
Channel section (mm)	700x500
Oil tank capacity (liters)	250
Total weight (ton)	2
Production (m ³ /h)	91
Production according to density of waste (t/h)	0,5-2
Automatic binding	3 wires – Ø2,7 mm
Overall dimensions Lxwxh	4525x1100x2400 mm
Bale size (mm)	700x500x(600-1200)
Weight of the bales (kg) Cardboard, length 1,20 m	80-150
