

## SAPHIR 600

The 600 is a heavy duty unit, fitted with shear blades and designed to handle from 6-10 Tonnes per Hour, from automatic feed systems. Ideal for any MRF facility or waste processor.

### Technical data:

Feed Opening (mm)	1550 x 1000
Loading capacity (cu.m)	1,24
Hydraulic power (tons)	60
Electric power (KW/HP)	37/50
Specific pressure (kg/sq.m)	7,5
Number of cycle/minute	3,5
Channel section (mm)	1000 x 800
Oil tank capacity (litres)	1000
Total weight (tonnes)	13
Production (m <sup>3</sup> /h)	260
Production according to density of waste (te/h)	6 - 10
Automatic binding	4 wires Ø3,2mm
Overall dimensions Lxwxh	8530 x 1850 x 3450
Bale size (mm)	1000x800x(1000-2000)
Weight of the bales (kg)	400 - 600
<i>Cardboard; length 1.20 m</i>
