

SAPHIR 800

These units are for the larger producer as the throughput can be up to 13 Tonner per Hour. These units can also be fitted with a guillotine for paper core applications.

Technical data:

2080

Feed Opening (mm)	1150x1000	
Loading capacity (cu.m)	1,24	
Hydraulic power (tons)	80	
Electric power (KW/HP)	37/50	55/75
Specific pressure (kg/sq.m)	10	
Number of cycle/minute	2,5	5
Channel section (mm)	1000x800	
Oil tank capacity (liters)	1000	
Total weight (ton)	13	
Production (m ³ /h)	185	370
Production according to density of waste (t/h)	4-6	8-13
Automatic binding	4 wires Ø3,2	
Overall dimensions Lxwxh	8530x1850x3450	
Bale size (mm)	1000x800x(1000-1200)	
Weight of the bales (kg) Cardboard, length 1,20 m	400-800
